

NEXT DREAM JOB

I'm looking for a position as a full stack developer with the latest & greatest technologies, in a place with a great social atmosphere.

EMPLOYMENT

2012-Present Senior full stack developer & Scrum Master NICE Actimize

NICE Actimize fights financial crimes globally. It is in production in 10/10 of the largest US banks.

My team works on the client facing web-application: enterprise high-scale system, supporting different environments.

- Promoted to Senior Developer.
Hands-on development on complex platform features, designing UX-oriented, coding with high security standards. End to end process, including unit tests & automation testing, and documentation.
- Promoted to Scrum Master.
Leading a mixed team and mentoring new developers. Planning features from design to timely delivery.
- Only employee in the company with two hackathon projects productized.
- Only employee in the group selected to fly abroad to clients during past 4 years (group has 30 people).
- Focal point company-wide for integration & embedding an external system (Tableau).
- Recognition award for initiating social events.

2010-2012 Full stack developer InCauda

InCauda was a startup for online ad distribution. Had a major client, closed due to lack of funding.

- First employee in a 4-people startup; worked and trained independently.
 - Built a management system from scratch for clients on a new framework.
-

EDUCATION AND SERVICE

2006-2010 B.Sc. in Computer Science Ben Gurion University

- Awarded the Lubner Prize (for extensive volunteer work)

2003-2006 Army Service IDF

2000-2002 Graduated with Honors Amit High School

- Received the Shazar Award by the president of Israel (for a research project in history)
-

LANGUAGES & TECHNICAL KNOWLEDGE

Languages: Hebrew (mother tongue), English (mother tongue level).

Expert: Java (Hibernate, Spring), SQL, JSP, Web (HTML, JavaScript, JQuery, CSS, REST).

Novice: Python, Django framework, AngularJS.

More: Tomcat server, Maven, Jenkins, SVN.

Methodologies: Agile development, secured coding, UX concepts.

VOLUNTEER WORK

2013-Present Computer Science Teacher on weekend Fridays Ostrovsky High School

Ostrovsky High School admits all applicants, yet 99% of the students graduate the final exams.

- Started as a 1x1 tutor. From 2014: Assistant-Teacher in classroom. From 2016: Independent teacher.
- Teaching Java and web-programming.

2016-Present CEO on weekend Saturdays Adi Choir

Adi Young Classical Choir is a semi-professional choir, unique as a financially independent Israeli choir.

- Joined as a singer in 2013, selected as CEO in 2016.
- Established a non-profit organization. Managing a volunteer team. Initiating projects (as re-branding).
