

NEXT DREAM JOB

Full stack developer position that impacts MANY people's lives for the better.
A perfect place would have the latest tech and the greatest social atmosphere.

EMPLOYMENT

2019-Present Senior full stack developer **Broadcom**

Broadcom's systems manage software releases with full CI-CT (continues deployment & testing). Clients are of world-class scale.

- Spot Award – "Drived customer & business success".
- Dived into new great technological stack. Angular & Protractor tests, a bit React, Java (of course), Gradle, more.

2012-2019 Senior full stack developer & Scrum Master **NICE**

NICE Actimize fights financial crimes globally. It is in production in 10/10 of the largest US banks.

My team works on the client facing web-application: enterprise high-scale system, supporting different environments.

- Promoted to Senior Developer. Hands-on developing complex features in monolith (e2e: design-code-test-document).
- Promoted to Scrum Master. Leading a mixed team and mentoring new developers.
- Only employee in the division with two hackathon projects productized.
- Only employee in the group selected to fly abroad to clients during past 4 years (group has 30 people).
- Focal point company-wide for integration & embedding an external system (Tableau).
- Recognition Award for initiating social events.

2010-2012 Full stack developer **InCauda**

InCauda was a startup for online ad distribution. Had a major client, closed due to lack of funding.

- First employee in a 4-people startup, worked independently.
 - Built a management system from scratch for clients on a new framework.
-

EDUCATION AND SERVICE

2006-2010 B.Sc. in Computer Science **Ben Gurion University**

- Awarded the Lubner Prize (for extensive volunteer work)

2003-2006 Army Service **IDF**

2000-2002 Graduated with Honors **Amit High School**

- Received the Shazar Award by the president of Israel (for a research project in history)
-

LANGUAGES & TECHNICAL KNOWLEDGE

Languages: Hebrew, English (fluent).

Server: SQL, Java (Hibernate, Spring), Python (Django framework).

Client: Angular & Protractor, React (basic), S\CSS, HTML (and older: AngularJS, Raw JavaScript, JSP...).

Misc.: GCP (Google Cloud), Gradle & Maven, secured coding, UX concepts.

VOLUNTEER WORK

2013-2019 Computer Science Teacher on weekend Fridays **Ostrovsky High School**

Ostrovsky High School admits all applicants, yet 99% of the students graduate the final exams.

- Java and web-programming. Started as a 1x1 tutor, from 2014 assistant-teacher, from 2016 teacher.

2016-2020 CEO on weekend Saturdays **Adi Choir**

Adi Young Classical Choir is a semi-professional choir, unique as a financially independent Israeli choir.

- 2013 joined as a singer, 2016 selected as CEO. Established a non-profit org., managed a volunteer team.
